Challenge & Opportunity for You

Velkommen! Willkommen! Welcome!

Welcome to the first-ever Kata Summit!

The Improvement Kata and Coaching Kata are a powerful way for human beings to practice universal, scientific skills that anyone and any team can use to navigate uncertainty and meet challenges.

Here are some KataCon Highlights we think you will enjoy:

- > **Kata Geeks** - there are a large number of experienced Kata practitioners here who are available to answer your questions and share insights and experience. Seek them out... they're identifiable by their "Kata Geek" buttons.
- > **An Interactive and Experiential Practice Session**: We designed the afternoon of Day 1 to give all KataCon participants a direct experience with the Improvement Kata and Coaching Kata routine, which can shape our discussions on Day 2.
- > **Highly Kata-Experienced Presenters**: Our keynote presenters, panel leaders and panelists all have experience on the Kata subject. They also include senior leaders who are working to deploy IK/CK practice in their organizations. There are examples and illustrations from Healthcare, Office/Service, Manufacturing, Software, Education and even personal life.
- > **Up Close & Personal**: After the conference, 40 KataCon attendees will visit B/E Aerospace, a Miami manufacturing site that has been practicing IK/CK in their facility. Small groups will have the chance to experience live Kata Coaching Cycles and be able to discuss and debrief their observations.

And here's a task for you: As the Kata Summit proceeds, we invite you to define areas where you can practice the routines of the Improvement Kata and Coaching Kata through actual application. Think broadly and include both your workplace and personal life. Note that we may ask you about the application areas you have been juggling down!

We wish all of us a terrific KataCon.

Mike Rother, Author *Toyota Kata* (among others)
 Bill Costantino, Senior Partner, WJ Consulting Group
 Jim Huntinger, President Lean Frontiers
 Duwayne Butcher, VP Lean Frontiers
