

In the beginning....
KATA your TWI implementation

**Challenge: By September 1, 2016
we will have 100% IV starts
successful on first attempts**

Target Conditions

- By June 8th we will know our current condition
- By July 1st we will create a breakdown for our department
- By October 1st our lowest performers will have an increase of 5% on 1st time stick success

Challenge: By February 14th we will achieve 93% or greater 1st attempt IV success in the cath lab

Target Condition

- By November 1st we will have cath lab staff and management buy-in evidenced by their desire to collect data
- By January 30th we will train cath lab on IV starts and reach 93% success by February 14th.

Take Aways

- Army on the ground
- Failure is KATA's Phoenix
- Let it go
- Driving Force
